5 Bedrooms . 2 Bathrooms . 1,664 Sqft

Meticulously maintained 5 bedroom, 1.5 bath hip-roof Colonial brimming with character from the beautiful natural Craftsman style woodwork to the gleaming hardwood floors throughout located on the corner of a nice, quiet dead-end street just a stone's throw from the Manchester/Bedford line. Inside, you'll fall in love with the original built-in wood and glass cabinetry in the dining room and double glass door shelves in the Craftsman style pillars in the living room and be thrilled with the refinished, freshly polished hardwood floors, 5 good sized bedrooms, tall ceilings, walk-in pantry, updated bathrooms, and the dry, squeaky clean basement. There's more space to relax on the lovely, fully enclosed, 3 season front porch equipped with new vinyl windows and a tongue and groove wood ceiling. The exterior of the home has been just as nicely maintained with vinyl siding, vinyl windows, modern electrical renovations (removal of knob and tube and installation of additional outlets), 12-13 year old roof, newer chimney liner, and new side porch entry with vinyl rails and gate. Close to schools, shopping, and commuter routes. Come see this turn-key property before it's gone!
