Location, Location, Location!!! South end Cape close to everything, shopping, schools, and highways. Property has been totally gone through, with new kitchen, updated bathroom, tile and hardwood floors, finished lower level, updated electrical, and much more. Great place to call home with 3 Br s and a separate office that opens to the back deck and fenced back yard. Want that segregated play area or man room, you are able to get away in the lower level!!! Separate outbuilding and carport. This will not last and is an excellent value in this starter home price range!!! Come and see for yourself!!!
