GORGEOUS one level living at its BEST! This extremely upgraded home cannot be more beautiful. The extensive upgrades include over 70k in exterior plantings, trees, patio, maintenance free Azek Pergula (another outdoor living area), lighting for trees with timer which illuminates at night, granite steps, great lawn all sitting on a elevated lot facing a mountain view and sunsets! Very spacious open concept home! Everything was carefully thought out, so right when you walk in the door you are invited into the living space looking at the 2 sided gas fireplace that opens up into the 4 season Sunroom. Master bedroom suite with tiled shower and sep soaking tub, 2 other bedrooms on the other side of the house. Over 2300 sq ft with 9' ceilings!! This home is sure to please you... must see to appreciate everything it has to offer!
