Beautifully updated unit in Mt St Mary complex. This unit features include Brazilian cherry hardwood floors, updated kitchen complete with granite and stainless steel appliances that has an opening to the large living area, separate dining room as well as two bedrooms and two full baths with one being an en suite with the Master bedroom. Additionally this unit is not only one of the largest in the complex at over 1300 square feet of living space but is it also the only unit in the building that shares no other walls with adjacent units. A rare find in the condo market of not only having the original charm of the history of this building but also a unit that is the size of most average size homes. The complex boasts a grand entrance with marble foyer, mail room, on site laundry facilities, billiards room and a grand hall with theater for residents to use for large scale entertaining.
