Original owners have cared for this lovely home in a great neighborhood. Custom kitchen overlooks the living room with wood fireplace, vaulted ceilings and a beautiful four season room which goes out to an expansive deck overlooking the private back yard. Floor plan is versatile for Formal Dining or 2nd family room and a home office. Master En suite is bright and sunny with a very custom finished 3/4 bath and plenty of closet space for the entire house. New roof, new windows & skylights, new shed, decking, wired for a generator. Lower level space ideal for finishing. There's lots to love here in this ideal neighborhood setting.
